Tarun Kumar

BCA Student | Software Developer | Java Developer | Web Developer
+91-8287961953 | tarunkumar@gmail.com | Ghaziabad, UP | linkedin.com/in/tarun-kumar2604 | github.com/Tarun-82

EDUCATION

Inmantec (IAMT), CCSU University — *Ghaziabad, Uttar Pradesh*
Bachelor of Computer Applications (BCA) — *Expected Graduation: 2027*

SDIC, UP Board — *2024*
Senior Secondary (12th) | Percentage: 81.80%

EXPERIENCE

Web Development Intern | Thinklyedu — *30 Jul 2026 – 30 Aug 2026*

- Completed a one-month Web Development internship (Certificate ID: TKL-2026-002) covering HTML, CSS3, JavaScript, frameworks, and APIs
- Applied HTML5, CSS3, and JavaScript to build and style responsive web pages and to work with APIs

Web Developer Intern | Primeor Solutions, Bhopal — *29 May 2026 – 29 Jun 2026*

- Completed a one-month Web Developer internship (Intern ID: PS/WDI/2026/020), recognized for dedication and strong problem-solving
- Applied front-end skills in HTML5, CSS3, and JavaScript on web development tasks assigned during the program

Java Programming Intern | CodSoft (Virtual) — *25 May 2026 – 25 Jun 2026*
Java | *OOP* — github.com/Tarun-82/CODSOFT

- Built three console applications (Number Game, Student Grade Calculator, ATM Interface) during a 4-week virtual internship, applying OOP, arrays, loops, and input validation
- Implemented an ATM interface supporting deposit, withdrawal, and balance/account inquiries with robust input validation

PROJECTS

Banking System Application | *Java* | *JDBC* | *MySQL* — github.com/Tarun-82/banking-system

- Developed a Java console application with user authentication supporting login validation and session control using OOP principles
- Secured all database queries using PreparedStatement, preventing SQL injection across 10+ database interactions

FocusPill — E-Commerce Website | *React* | *React Router* | *Context API* | *Bootstrap 5* — github.com/Tarun-82/FocusPill-Website

- Built a responsive e-commerce frontend with product listings, product details, and a shopping cart using React Context API for state management
- Implemented multi-page navigation with React Router, including a shop page with filtering and sorting

MedStore — E-Commerce Website | *React* | *JavaScript* | *CSS* — github.com/Tarun-82/Kamagra-Website

- Developed a responsive e-commerce frontend for an online store using React components and modern CSS styling
- Implemented product browsing and a clean, mobile-friendly UI following component-based architecture

React Todo App | *React* | *JavaScript* | *Local Storage* — github.com/Tarun-82/TODO-APP

- Built a todo app using React Hooks (useState, useEffect, useRef) with Local Storage persistence so tasks survive a page refresh; deployed live on Netlify

CERTIFICATIONS

Complete Java, Intermediate SQL, HTML, CSS, JavaScript Completion Certificates — KnowledgeGate / HackerRank | TCS ION Career Edge — Young Professional | AI Tools and ChatGPT — Workshop

ACHIEVEMENTS AND ACTIVITIES

Hi-Tech Meritorious Student Award | Participated in Technohack-2024 | Participated in Blind Coding of INVENT

SKILLS

Languages: Java, C, JavaScript
Frontend: HTML5, CSS3, Bootstrap 5, React.js
Backend: JDBC, Servlet, JSP
Databases: MySQL, SQL
Core CS Concepts: OOP, Data Structures, Exception Handling, Multithreading, Collections Framework, Functional Programming (Streams, Lambda)
Tools & Platforms: Git, GitHub, IntelliJ IDEA, VS Code, Vite
